

Delivering Effective Wound Care Charting

Silhouette is the complete charting solution for your wound patients.

The Silhouette suite is designed for imaging, measuring and documenting soft tissue injuries and skin lesions, including wounds. Silhouette delivers the precision you need.

Key benefits for wound care clinicians:

- Easy to use
- Accurate, reliable data across users
- Customizable dashboard reporting
- Clear, consistent images
- Secure, centralized database
- Highly configurable
- Online and offline charting
- Track procedures for billing and insurance claims

“Silhouette’s high-quality images and advanced measurement capabilities have revolutionized our wound management protocols, enabling our clinicians to make informed decisions quickly and accurately.”

Martha R Kelso
CEO, Wound Care Plus, LLC.

Secure Reliable Data

Silhouette ensures patient data is **secure and accessible** via a centralized database.

Silhouette provides a **complete online record** of each patient's healing progress, enabling cross functional care teams to **collaborate** in a timely manner across locations.

Silhouette ensures accurate, consistent and **complete record** is available and securely stored for each subject.

Easy to Use

Silhouette is a **non-contact, easy-to-use** system that enable all users to quickly capture images and record healing data.

Silhouette **reduces documentation time**, enabling focus on successful patient outcomes.
