

Empower Your Wound Care Team

A solution that supports effective wound management across all care settings.

Silhouette is an ideal clinical practice solution because of its portability, ease of use and EMR integration for secure data sharing across multiple locations.

Easy to use

Silhouette is a **non-contact, easy-to-use system** that enable all users to quickly capture images and record healing data.

Integrated

Silhouette connects and works with a wide range of **systems**.

Flexible

Silhouette works both **online and offline**, enabling data to be collected in all locations, at all times.

Dashboard Reporting

Customizable dashboard reporting to manage your clinical and business objectives.

Proven

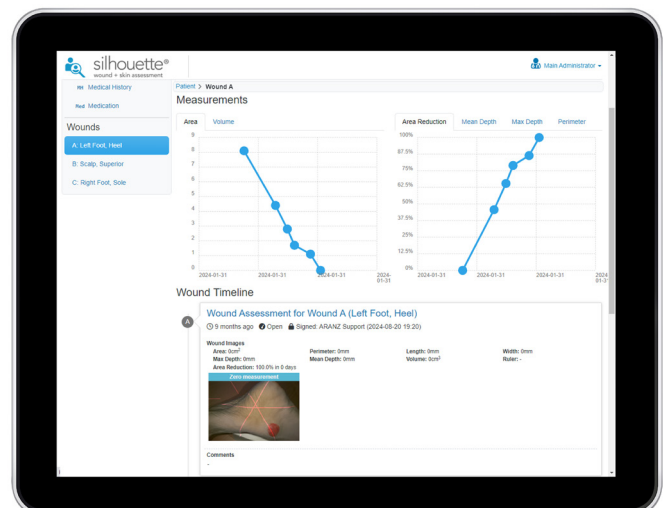

Silhouette is a **well established and agile** solution, providing a range of data capture, processing, and review capabilities for use by clinical professionals, patients, and their caregivers.

Configurable

Highly configurable software to **meet your specific needs**.

Support

A dedicated training and 24/7 **services team** available, no matter where you are located around the world.

“This platform and the associated technology has transformed and elevated the way we provide advanced wound care services to all the care settings, making it one of my favorite digital devices changing healthcare forever!”

Martha R Kelso
CEO, Wound Care Plus, LLC.

Silhouette delivers:

Accurate wound outcomes data and reporting for **evidence-based care.**

Portability to **any care setting** including inpatient, outpatient, long term care, home health and telehealth applications.

Faster assessment time resulting in less unnecessary hospital admissions.

Improved wound status data communication across health care services for **better patient experience.**

A **specialized services team** that provides full project management, planning, configuration, and onsite wound surveillance training.

Silhouette regulatory approvals includes:

- FDA cleared – 510(k) number K070426
